PRESIDENT'S MESSAGE | April 2023

Hooray for spring! If you are like me, this recent warm and sunny weather has been a very welcome change after a typical grey and gloomy winter. Many of you will start doing more re-potting. Those without greenhouses may be planning to bring your orchids outside as the threat of frost recedes.

One of the most important parts of being a member of our orchid society is that we are a social organization. We share information about growing orchids with each other, but we are also sharing a little bit of our lives with each other. When you are at an in-person meeting, try to reach out to new members or even a member that might not be new, but that you might not know very well. Ask them about their orchid collection and what kinds of orchids they grow. If they are new to our society, learn their name. Introduce them to one or two other people. Let's try our best to make everyone feel welcome.

We need more volunteers for the Cactus Society show on the 29th of April. Volunteers are needed to staff our COOS information table and help sign up new members. Please email Nancy Shapiro at nlshapiro2@gmail.com, if you can help.

We are still finalizing our member's survey questions, but you should see an email from our society with a link to the survey in the near future. Please take the time to fill out this short 10-question survey. It will have a real impact on our society's future programming.

Ken Mettler will be heading up to the West Shore Orchid Society show on Friday, the day after our meeting. He'll be choosing orchids to take for the exhibit from our show table. So, anyone who has plants that may be worth putting in a show should bring them to the meeting.

This edition of *The Reporter* includes the article, 2023 Roth Report. If you have a collection you would like to showcase here, please send your images and text to centralohioorchidsociety@gmail.com and we'll include it in the next newsletter.

Thank you,

Dave Markley
Interim President

Greenhouse in Northern Ohio**

Society Meeting

April 20, 2023

6:00 Beginner's Corner

6:30pm Meeting Begins

Franklin Park Conservatory + Virtual

learn. grow. share.

Danni Sharp has been growing orchids as well as house and garden plants for many years. Danni grows a lovely variety of orchids in her basement, and in a small greenhouse in Northeast Ohio, so her experiences and challenges are similar to many we all encounter. Danni is the creator of the YouTube Channel [Danni's Orchid Journey](#), where she shared her experience setting up a small greenhouse, and trying to keep plants alive in it in chilly Northeast Ohio winters. She also shared the setup of her basement growing area this past year. Danni is also the moderator of the Facebook page Beginner Orchid Enthusiasts, which provides positive encouragement for those new to the hobby, as well as experienced growers learning to grow a new type of orchid. She manages to do all this while raising 5 children, and credits her inspiration for growing to her mother. Instagram: [dannisorchidjourney](#)

Greater Cincinnati Orchid Society Orchid Show

MARCH 25-26 2023

Our society had an exhibit at the Greater Cincinnati Orchid Show in March. Tracy Strombotne collected member orchids and set up the exhibit on Friday. Megan Osika took it down on Sunday, and brought back our member's orchids. Thank you, Tracy and Megan, for representing us. In AOS judging, Justin Pepperney's *P. lowii* won a 77 pt HCC.

MARCH PLANT OF THE MONTH

***Paphiopedilum armeniacum* 'Orchid Court' CCM/AOS**
Grown by Tennis Maynard

The Plant of the Month from our March meeting is an incredible specimen plant grown by Tennis Maynard. With eight inflorescences on 50+ growths, this *Paphiopedilum armeniacum* is grown up high in the greenhouse for maximum light, kept moist in a basket with a fine bark mix. Tennis puts the plant outdoors after winter is done, for a hot summer and a cold fall, staying out until the nights have stayed down around 40°F as long as possible.

MARCH 2023 SHOW TABLE

CATTLEYA

- 1st Blc. Afternoon Delight 'Magnetism'
- 2nd Bc. Golf Green 'Hair Pig'
- 3rd *Cattleya lueddemaniana*

GROWN BY

2023 Roth Report

By Justin Pepperney

***Paphiopedilum rothschildianum* 'Canadian Club' GM/JOGA**
Grown by Justin Pepperney

Justin had some nice plants of *P. rothschildianum* bloom this spring. This multifloral Paph species is native to Borneo, but grows well in the greenhouse or indoors. Justin grows his roths indoors under LED lights. They are in Orchiata mix, and watered twice a week, with alternating feeding with a weak concentration of Miracle Gro Orchid Food (1/4 tsp/gal). This species can take 10 years to bloom from flask, but once they mature the plants clump readily and can put out spikes every 1-2 years. Here are just a few of Justin's plants blooming this year.

Paphiopedilum rothschildianum 'Borneo' FCC/AOS

Paphiopedilum rothschildianum 'Chester Hill' x 'Red Baron'

Paphiopedilum rothschildianum 'Chester Hill' x 'Red Baron'

Paphiopedilum rothschildianum 'Chester Hill' x 'Red Baron'

Paphiopedilum rothschildianum 'Chester Hill' x 'Red Baron'

***Paphiopedilum rothschildianum* 'Winter Star' x 'Western Monarch'**

Paphiopedilum rothschildianum 'Sam's Choice' x 'MM Best'

Paphiopedilum rothschildianum 'Rex Jr.' x 'MM Best'

Judging is being held on May 6, 2023 at 10:30 AM.

Hello Central Ohio Orchid Society,

We're writing a check this week for up to \$20,000 to [help preserve the most extensive collection of orchid books and journals in the world](#) - The Rudolf Jenny Collection.

We're halfway to our goal but need your help to reach the full \$20K this week...
(if you have already donated, we thank you from the bottom of our hearts!)

The late Rudolf Jenny had made it his life's work to collect and catalog nearly all articles, books, manuscripts, drawings, paintings, etc. that involved orchids (some of them were never even published.)

It was Rudolf's wish to have this priceless legacy make a lasting impact, and he donated it to the Lankester Botanical Garden in Costa Rica.

This is Latin America's leading institution for the conservation and study of orchids. Their herbarium, laboratory, digital collection, and libraries have served as a key source for researchers and students all over the world.

[Let's shape orchid history by creating a safe, long-term home for over 18,000 orchid books, scientific journals, photos, and paintings...](#)

For the next few days, we're doubling your impact by matching all contributions through our library fund to provide up to \$20,000 (by matching up to \$10K in donations) toward the relocation, safe-keeping, and public access to this extraordinary resource.

[Help save this invaluable collection for generations to come...Donate today!](#) 

It means the world for us to help incredible causes like this, and we thank you for your continued support.

Jay Balchan
President
