# JANUARY 2025 COOS REPORTER

## *Picture of the Month*

**Grown by Edna Markley**

We requested pictures of blooming orchids for this month's edition of the newsletter via an email sent by our wonderful Secretary, Tom Hart. Edna Markley was the only member who submitted photos. This orchid display was chosen by the COOS Reporter Editor as the Picture of the Month.

## *President's Message*

*I hope everyone had a wonderful holiday season and hopefully you enjoyed some time with family and friends.*

*Tracy has done a great job as program chair and has put together a slate of really interesting speakers for the coming year. See more on that elsewhere in this newsletter.*

*If you haven't already done so, please pay your dues for 2025. It's still only \$20 per individual and \$25 per couple/family. The money raised is needed to pay the expenses for the excellent speakers we have planned as well as other operating expenses. Please see below for a quick link to pay your dues on line.*

*Please remember that we are now utilizing Sign Up Genius for determining who will be bringing snacks to our monthly Society meetings. Please use this link to sign up for this month and future month's meeting hospitality.*

## *It's Time to Pay Your Annual Dues*

Please remember to submit your 2025 Dues Payment as soon as possible. Your dues helps pay for our program speakers, meeting space at the Franklin Park Conservatory, Annual Show Expenses and other Society activities.

Annual Dues are only \$20 for an individual membership and \$25 for a family membership

It's easy to pay by PayPal by following this link: [Join Us](#) or print out the membership form found by clicking the link above

## *January 16, 2025 Society Meeting*

Our speaker will be Nicholas Rust from Rusty Exotic Orchids. The program will be on beautiful **Jewel Orchids**. The meeting will take place in person, beginning at 6:30 pm (for the Beginners Corner) at then Well's Barn at the Franklin Park Conservatory and will also be available on Zoom (see link below).

Nicholas Rust is an up-and-coming hybridizer in the orchid community. His orchid passion began in 2015 when a mini-Phalaenopsis was gifted to him. Like a flame to gasoline, this gift quickly pulled him into the diverse world of orchids. Shortly after his interests were formed, he began exploring the culture of several unique genera of terrestrial orchids. He now specializes in Habenaria and other related genera, jewel orchids, Australian terrestrial orchids, and Bulbophyllum. In 2019, this obsession bloomed into a small orchid nursery, RustyExotics Orchids, which he uses to share the wonders and beauty of his work.

Through studying biochemistry and molecular biology during college, Nicholas approaches his orchids with the same scientific perspective he uses while working in a research lab. This led to an interest in the entire growth cycle of orchids and the start of his own hybridization program in 2018 which focuses mostly on terrestrial orchids, especially Habenaria. His aim is to use rarely cultivated species and distinct variations of species to create truly exceptional shapes and colors that will pave new directions for unique hybrids.

Rusty Exotics Orchids (REO) was founded in 2019 by Nicholas Rust. His goal was to provide the public with high quality, unique orchids from his own hybridization program, and that is exactly what we do! We give special attention to each and every plant out of flask, ensuring only the best, healthiest plants make it to our shelves. We also pay special attention to floral quality by using only exceptional and distinctive cultivars to create our own crosses. All this ensures our plants will not only grow well but will bloom well, too!

Rusty Exotic Orchids mainly specializes in terrestrial orchids, especially those in the subtribe Habenariinae. If you are searching for any Habenaria, Pecteilis, Pectabenaria, Cynorkis, or even Bonatea, this is your place to look! We also grow many jewel orchids and Australian terrestrial orchids like Thelymitra. Terrestrial orchids aside, we also cultivate many Catasetum, Bulbophyllum, and several other fun genera of orchids. Besides orchids, we have a beautiful collection of odd aroids like Amorphophallus and Typhonium, both of which we offer for sale several times a year as dormant tubers and the occasional seed. Starting in 2021, we also expanded into the world of carnivorous plants where we focus on Sarracenia, or North America pitcher plants. With so many options, we hope to have some exceptional hybrids and amazing line-bred species for everyone!
